## AND IF WE ONLY GET "TEDDY!"

The Intelligence's suggestion that  
Governor Roosevelt be invited  
to Wheeling

### RECEIVED WITH ENTHUSIASM.

It is suggested that there be two  
Banquets, the first on the Eve-  
ning of the 21st.

The Intelligence's suggestion that Governor "Teddy" Roosevelt be extended an invitation to visit Wheeling and take, with Admiral Dewey, the leading part in the patriotic ceremonies being arranged for Washington's Birthday, was received with the greatest enthusiasm throughout the city yesterday, and it is not unlikely that the Fort Henry tablet committee will, at its meeting next Tuesday evening, formally invite the colonel. The suggestion made at the same time by this paper, that Governor Aldrich, of this state, and Governor-elect Nash, of Ohio—states most interested in the commemoration of the siege of Fort Henry—be asked to participate, was equally well received.

Already so many of Wheeling's citizens have expressed the desire to meet Admiral Dewey on the occasion of his visit in February that the Fort Henry tablet committee is faced with a problem. It will be remembered the Society of the Sons of the Revolution of West Virginia have secured Admiral Dewey's acceptance to be the guest of honor at the society's annual dinner, in Wheeling, the night of the day of his visit, February 22, so the desire for a more representative gathering cannot be gratified then. This was admitted by Chairman Garvin, of the committee, in a talk with the Intelligence yesterday afternoon. The latter thereupon suggested that the admiral be communicated with and asked to fix Wednesday afternoon, February 21, as the time of his arrival in Wheeling, so that the committee can arrange for the banquet so generally desired, that night.

"That is a happy thought," said Mr. Garvin, "and I will communicate with the admiral and secure, if possible, his compliance with our desires. If he complies our way will be cleared nicely."

Chairman Garvin is losing no time in naming the sub-committees upon which will devolve the work of preparing for the "Dewey Day" doings. Yesterday afternoon he announced the following committees:

Finance—John Waterhouse, chairman; Hullahen Quarrier, M. A. Chew, Frank G. Caldwell, Morris Horkheimer, Clarke Hamilton, Jr., F. C. H. Schwertfeger, H. C. Meyer and T. C. Burke.

Press—R. M. Archer, chairman; John Frew, C. H. Taney, H. V. Arkle, H. C. Ogden, R. B. Naylor, Louis Colmar.

The members of the finance committee are to be requested to meet with the Fort Henry committee next Tuesday evening at 7:30 o'clock at Chairman

Garvin's office, on Chapline street, when plans will be discussed, and an effort made to learn something of the amount of money that will be needed to defray the expenses of "Dewey Day." At the same time the committee will decide on the parade question, and of course, will decide to have one, for the sentiment in favor of it is so general that the committee will find itself unable to ignore it.

### THE SWORD FUND.

To the Public:

We endorse the initiative action taken by the Wheeling Intelligence, both in inviting Admiral Dewey to take part in the ceremonies attending the setting of the Fort Henry commemorative tablet and in proposing the raising of a fund by popular subscription for the purpose of purchasing a suitable sword to be presented to Lieutenant John S. Dodderidge, U. S. N., in recognition of his services contributory to the great victory won by Admiral Dewey in Manila Bay.

We suggest that the Intelligence proceed at once to receive subscriptions to the "Sword Fund" to the amount of \$500, same to be expended by the Fort Henry Tablet Committee in purchasing the sword to be presented to Lieut. Dodderidge, in connection with the Fort Henry ceremonies, February 22, 1900.

### Concert and Supper.

A choice supper and fine concert will be given at the Young Men's Christian Association building next Thursday evening by the "Ladies' Auxiliary of the Association." A substantial and palatable menu will be provided for the supper which will be served from early in the evening until 8 o'clock. The concert will be given in the hall and will be participated in by some of the best vocal and instrumental musical talent in the city. The indications already are that the whole affair will be a most gratifying success.

### A GALLANT OFFICER.

Was Capt. O. B. Warwick, Recently Killed in the Philippines.

To the Editor of the Intelligence.  
SIR:—Capt. O. B. Warwick, of the Eighteenth United States Infantry, who was killed in battle on November 28, at Pore, on the Island of Panay, Province of Iloilo, was esteemed one of the most gallant and efficient officers in the regular army, and his death will be a serious loss to that splendid regiment.

There was a very interesting private letter to a friend in this city, describing the military and political conditions existing on that island at the date of his letter, September 24, which letter was sent to Senator Atkins for his personal use. It appears that the forces occupying the island were insufficient to undertake extensive operations, but later additional troops were sent, and an active campaign was begun under Colonel Hughes, which resulted on November 28 in the defeat and dispersion of the enemy, with, unfortunately, the loss of one of our most valuable officers.

Captain Warwick, in his letter, said in part: "The situation here is far from being settled, and many lives will be sacrificed among the Visayans, before the insurrection is subdued. This race of people, the Visayans, are different in many ways from the Tagalogs, who inhabit the Island of Luzon, and many of whom have crossed over to this island and also to Negros and Cebu since hostilities began. It is the Tagalogs who stir up strife and discontent among the Visayans. I really think that if it were not for the Tagalogs who are here in the insurgent army, the Visayans would surrender, and accept the government offered by the Americans. I am in command at Molo, a town of 10,000 inhabitants, and I call on the prominent Visayans, and they return my calls. They are a better class of people, possess more culture and a certain kind of refinement, but they are not to be trusted, for at heart they do not love us. The coun-

try here is desolated, and the people have not been able to raise any rice for several years. They were fighting the Spaniards before we came, and the last part of the island is devastated. I live through my term of duty here I hope never to return, as it is simply not a fit place for a white man to live in, but I don't want the United States to let up until we conquer them, and I shall never ask to leave until this is done, but it will require several months to accomplish it. We need more troops, and need them badly. I believe one hundred thousand men will be needed to conquer and govern these islands, but not a man less to do the thing properly. This is a conservative estimate, and I quote from no man, but think I know what I am talking about."

Captain Warwick was an unmarried officer, but leaves two sisters, and a young wife, whom he had adopted, to mourn his untimely death. The latter is now residing at Fort Sam Houston, San Antonio, Texas.

### THE PRESENT WAGE SCALE.

Workmen Secure Concessions From Manufacturers.

The settlement of the wage scale for the pressed ware branch of the flint glass industry at the conference on Wednesday was more favorable to the workers than was at first announced. The National Glass Company agreed to the workers' request for the unloading of all the factories under its control and the equalizing of wages.

The demand for an advance of 10 per cent on the union scale was withdrawn and an increase of 5 per cent was accepted. It was also agreed to bring the wages of the men employed in the non-union houses up to this standard. This will give workers in the different factories that have been operated outside of the union advances ranging from 15 to 30 per cent.

The tumbler workers will get an advance of 62-3 per cent, and the new rate went into effect this morning. In the tumbler branch the men work under a sliding scale based on the selling price. With every one cent a dozen advance in the price of common tumblers the pay of the workers is to advance one cent a hundred. It was learned yes-

terday that most of the non-union men had been organized before the conference on the wage scale.

A conference on the blown-glass scale will be held on Monday. It will likely be adjourned without any trouble.
